

TIME TO MAKE SOME CHANGES?

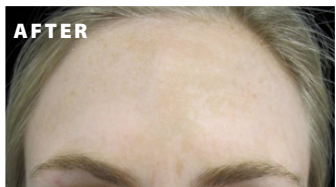

SPRING HAS SPRUNG AND THIS, OF ALL SEASONS, IS THE ONE THAT TENDS TO INVIGORATE AND SPUR US INTO ACTION. If you've been putting off your skin check, make that appointment **now** and ensure you can go out into summer with **confidence**. Perhaps you've been considering an appearance medicine treatment, cosmetic surgery or you have an irritating skin condition that just won't ease. The team at the Da Vinci Clinic offer a significant range of dermatological, surgical and non-surgical treatments and are available by appointment for advice, diagnosis and treatment.

AN APPEALING PACKAGE!

BEFORE

AFTER

**Individual results may vary.*

Book now for your series of three TCA Peels, Retrieve - to prepare the skin – and our specially formulated **BioSKIN moisturising complex** to heal and transform the skin. This range also has a moisturising cream for all over body needs which includes lemon myrtle to calm itching and irritation. BioSKIN is competitively priced and because it is prepared at the Da Vinci Clinic, saves you the added hassle of filling a prescription elsewhere. Call now to learn more about this great deal and look fantastic for summer! **\$599**

We think this might appeal...

IS YOUR SKIN FEELING DULL? DO YOU HAVE FINE LINES OR PIGMENTATION? PERHAPS YOU SHOULD CONSIDER A TCA PEEL. For non-surgical facial rejuvenation this treatment, which includes three applications one month apart, has excellent results. You may have heard of people having chemical peels in the past, and having to stay at home due to the drastic peeling that followed. Times and products have changed and the TCA peel we use at the Da Vinci Clinic, results in a gradual, controlled peel, revealing fresh, new skin and a youthful appearance due to the stimulation and regeneration

of skin cells. The area you wish to treat and what the condition of your skin is, will determine the strength of the peel. Two to three weeks before the peel, we recommend preparing your skin by using a topical Vitamin A cream, Retrieve (otherwise known as tretinoin or Retin-A). You will need to moisturize your skin well and protect it from the sun after the treatments. If you want to look fabulous for the festive season, now is the time to act!

Treatments are overseen by dermatologist, Dr Ben Tallon of Skin - The Dermatology Institute

NEWS IN BRIEF • Appointments for appearance medicine treatments prior to Christmas, tend to fill up quickly. To avoid disappointment make your booking soon • We are affiliated providers to Southern Cross – this means less paperwork and faster processing for you on some skin cancer procedures!

NO NEED TO IMAGINE – SEE FOR YOURSELF!

OUR VECTRA 3D® IMAGING MACHINE IS INCREASINGLY POPULAR WITH PATIENTS AT BAY PLASTIC SURGERY.

For those considering plastic or reconstructive surgery with Plastic Surgeon, Mr Adam Bialostocki, the camera is an excellent tool as it allows you to see yourself, as you will appear post-surgery. No more guessing at the size and shape of your breast implants – under the careful guidance of Mr Bialostocki, you can see the outcome! New software for the Vectra 3Dâ Imaging machine means it will soon be used for the imaging of a wider range of surgical outcomes. Keep an eye on our Facebook page to view videos of what the process involves.

Dreading the excesses of summer?
Don't!

If excessive armpit perspiration is an ongoing problem for you, consider the highly effective treatment of Botulinum Toxin A (Botox®). Injected into this area, which is first anaesthetised with topical anaesthetic cream, results are noticeable after two weeks. Patients who have had this treatment find it life changing – no more reapplying anti-perspirants, regularly changing clothes or stained shirts. Effects usually last for 6 – 8 months but can be longer.

NEW SUNBLOCK NOW IN STOCK!

We love the **IS Clinical** range and are now stocking the gorgeous **IS Sunscreen with Titanium 50+.**

This ingredient provides a truly excellent physical barrier to protect your skin from the sun's harmful rays. We strongly recommend using a sunscreen year round to both slow the signs of aging and minimize the risk of skin cancer, including melanoma.

This product is perfect for the whole family - young, mature and problematic skins and is excellent under makeup.

Eclipse SPF 50+ \$80

Don't miss out!

Want to look relaxed, rejuvenated and at your very best for the festive season? The subtle use of Botox® and dermal fillers is a safe and ideal way to restore volume to those areas which lose plumpness as we age, and to soften lines. To avoid disappointment make an appointment now for any pre-Christmas appearance medicine treatments.
