

## A very a-peel-ing treatment!

Winter is here and that means it's time for a few specific treatments at the **Da Vinci Clinic**. If your skin is tired and dull, if pigmentation, uneven skin tone and fine lines are bugging you, the cooler months are the perfect time for a gradual, controlled TCA peel which gently reveals fresh new skin and a youthful appearance due to the stimulation and regeneration of skin cells. Overseen by our Dermatologist, **Dr Amy Stanway** and administered by our specialist nurses Nicky and Nicole. **Contact us for details.**

## SKIN VIGILANCE

Don't forget, you can also do things at home to give your skin the best chance at ageing well. Keep hydrated – we know it's not so easy in the cooler weather, so try having warm water instead of cold. Keep up the sunscreen – particularly if you're shooting off for a tropical defrost! And if you are, do not be tempted to use a sunbed to tan before you go – there are excellent creams and safe tanning options available.

**AUTUMN SPECIAL:** Buy a Skinnies Looks (light and dark tint for the face) and get a free 35ml Skinnies sungel SPF30. Ask our team!

✿coolsculpting OPEN DAY

# SOMETHING COOL FOR YOU!

Using advanced cooling technology to effectively deal to stubborn areas of fat, **CoolSculpting®** has quickly become one of our most asked for procedures. Ideal for the tummy, arms, hips and thighs, we also have great results for the jowl and chin areas too. On **June 8**, the Australian CoolSculpting® technician will be with us. For those with a CoolSculpting® appointment on that day, you will be part of a very exciting lucky prize draw. **Don't miss out!**

THURSDAY 8TH JUNE

## the latest & greatest

*As we are dedicated to ensuring our patients are kept up to date with the latest medical techniques and developments available, our team regularly attend both national and international conferences.*

- Coming up, Mr Adam Bialostocki's theatre and clinic nurse, **Angela**, is attending a wound care conference in Queensland. Angela is the specialist nurse you will see for your follow up appointments and care, post-surgery.
- **Mr Adam Bialostocki** is attending two medical aesthetic conferences in Australia, the first of which is the Australian Medical Aesthetics Congress, followed by the Plastic Surgery Congress 2017. Each of these bring together the best in

contemporary scientific and medical education from around Australia and the world, with Mr Adam Bialostocki attending those sessions and forums that deal specifically with his specialist interests.

- Our Dermatologist, **Dr Amy Stanway**, has recently attended the Australian College of Dermatology meeting in Sydney, which focused on the very latest advancements in skin cancer, rashes and cosmetic dermatology.

**DID YOU KNOW** – that we have a significant range of various types of allergy testing available? Call us for details.

## ONGOING ADVANCES

There are a lot of exciting advances in the treatment of skin cancers and inflammatory skin diseases. While these are not always available in NZ, our specialist doctors will certainly keep you informed of anything pertinent to your health care.

## Beauty Secrets

**WHY IS COOLER WEATHER BETTER FOR SOME PROCEDURES?**

While all cosmetic and reconstructive plastic surgery procedures are able to be performed year round, sometimes the cooler months are more comfortable for your recovery. So, which procedures in particular? Generally, those which deal with the body, as opposed to the face. Abdominoplasty, breast procedures (including mastopexy, breast implants/ breast augmentation, breast reduction and reconstruction),

liposuction to the tummy and thighs and buttocks. So, if you have something in mind, or you need some incentive to get under way, act now. Our New Zealand trained and very experienced Plastic Surgeons, Mr Adam Bialostocki and Mr Brandon Adams, are available by appointment to discuss your options, take your desired outcome seriously, and answer the many questions we know you will have.

## How do I make an appointment?

**While some of our patients are referred from their GPs, many are self-referring. Please call the reception team to book a time with our Dermatologist Dr Amy Stanway, and our Plastic Surgeons, Mr Brandon Adams and Mr Adam Bialostocki.**

**DO YOU REALLY KNOW WHAT WE CAN DO WITH BOTOX®?**

While the uses of Botox® for crows feet, frown and forehead lines, and to relax the bunching of muscles around your lips are well known, it is used for other reasons too. We think you'll love them... Botox® is a very effective 'tool' for reducing teeth grinding and jaw clenching. The relaxing of this over-

active jaw muscle can also have the effect of slimming an otherwise square shaped jaw – a lovely result. Small amounts of Botox® injected under the skin dramatically reduces the effects of excessive perspiration – this is a life changer for many! **Have you heard about Brotox?**

Oh yes, men love the results of subtle uses of Botox® to soften and relax 'grumpy' or 'worry' lines too. We make sure we retain the more rugged look men naturally have, and by the ever-increasing number of men coming our way, we know they're loving it.
